July 13, 2015
3-11 Shift Notes

BASF EMPLOYEES
232 Last Recordable
166 Last Lost Time
14 Days To RC Audit

#1 MED / AI 3992 next:

Removing all locks for the dust collectors on the roof. Started up the F-1 scrubber and hope to start on second shift. Powder room raw brought over (Cat C1).

#1 RC / AI 3992 next:

Starting the F-1 up late on first shift. Attempting to light calciner late on first shift.

Exhaust to F1

#2 MED line / Cu 0860:

On hold for Justin.

#2 RC/ Clean for Cu 1202 pills:

Will just need to make sure calciner is reversed, side door cleaned out, and screens changed out per the MOD. Then we will need to get Lot 2 of the 1201 material from the North end and feed it first.

Exhaust to F1

#3 MED line / Clean for D-1702:

Follow clean up sheet that has been provided by John.

#3 RC / X 253:

Able to get the CTO lit mid shift and is coming up to temperature. Trying to light calciner late on first shift. Will need to refeed Bag #3 and oversize drums from the X 253 run. Bag 3 to be remade, and the balance into bag 7 (partial) and continue into bag 8 if needed. The screen has been changed per Justin's e-mail to a 3 mesh.

Exhaust to CTO

#4 RC / D-1145:

Performed walk through and started the feed at the beginning of first shift.

Exhaust to 4 DC

#5 RC / Cu 3818:

Performing walk through late on first shift and starting the feed. Copper Carb unloaded from truck at dock.

Exhaust to 5 DC

#6 RC & Dryer / D 1781 next

Dryer and calciner back together, need MOD and screen information.

Exhaust to Sly Scrubber

West Pfaudler / D-1145

Should be able to resume batches on second shift if National dryer can stay lit(electrician scheduled to look at it late on first shift).

East Pfaudler/ D 1781 next:

D 1780 base moved from truck dock to 3rd floor. Lid re-installed on pfaudler. Start batches when calciner/dryer ready.

6 Tank:

Tank empty

7 Tank:

Tank empty

National Dryer / D-1145

Kirk looking into communication issues late on first.

PK Blender:

Hold for instructions.

Abbe Blender:

Hold

Tower 3 / Pd 0930:

Empty and on hold, more Pd 0930 after shut down. PSSR to be performed on Tuesday. Repacks can be performed when we get word that the material has been received.

Tower 6 / DPT 0101:

Empty and on hold, more DPT after shut down. PSSR to be performed on Tuesday.

North Screener /:

Down

South Screener / DPT 0101:

DPT screening done, hold until after shutdown.

#2662 (west) Pill Machine / AI-3915:

Continue running, will need more pill mix. No Catapal for now. May be a while.

#2664 (east) Pill Machine / AI-3915:

Continue rebuilding

TK #2 / V 2010:

Down

TK #4 / Cu 2508:

Unable to light. Maintenance notified and a work order written on first shift.

Harrop Kiln / AI 3920:

Kiln lit on first shift with the help of an electrician.

Building 27 Belt Filter / 5020 next:

Will be starting a run of 5020 right after shutdown. Bringing Britesorb to the second floor at 1:30. Jeff Lewis looking into a possible way to pump solutions up to the second floor instead of raising through the overhead door.

Call outs required on 1 through 10.
